

Adding thinking routines to the problem solving process

Tasks	
1. Do the action steps as teams. 2. Add a thinking routine to the process	<div style="background-color: #4a7ebb; color: white; padding: 5px;">Action Step:</div> <div style="background-color: #d9e1f2; padding: 5px;">Define the problem and the customer is.</div> <div style="background-color: #d9e1f2; padding: 5px;">What do you want to design; using functional requirements</div> <div style="background-color: #d9e1f2; padding: 5px;">Create lots of ideas</div> <div style="background-color: #d9e1f2; padding: 5px;">Converge on the few best ones</div> <div style="background-color: #d9e1f2; padding: 5px;">Sketch, Build, Test and Report</div>

See, Think, Wonder

Connect, Extend, Challenge,

- What do you **see** in the ideas in the list?
- What do you **think** this indicates?
- What makes you say that?
- What do you **wonder** this could expand to?

- How are the ideas and information presented **connected** to what you already knew?
- What new ideas did you get to **extend** or broadened your thinking in new directions?
- What **challenges** or puzzles have come up in your mind from the ideas and information presented?
